

## How to play!

1. Simply print both sheets of playing cards and then cut them up carefully.
2. Shuffle the cards and lay them face down in rows.
3. The first player takes their turn by turning over any two cards.
  - If the two cards match, you can set them aside and keep them.
  - If they don't match, you have to turn both cards back over, but try and remember what they were!
4. The next player takes a turn, then the next, and so on until all the pairs have been found and matched.
5. At the end, everyone counts their pairs and the player with the most pairs wins!
