

MAKE YOUR OWN CROWN

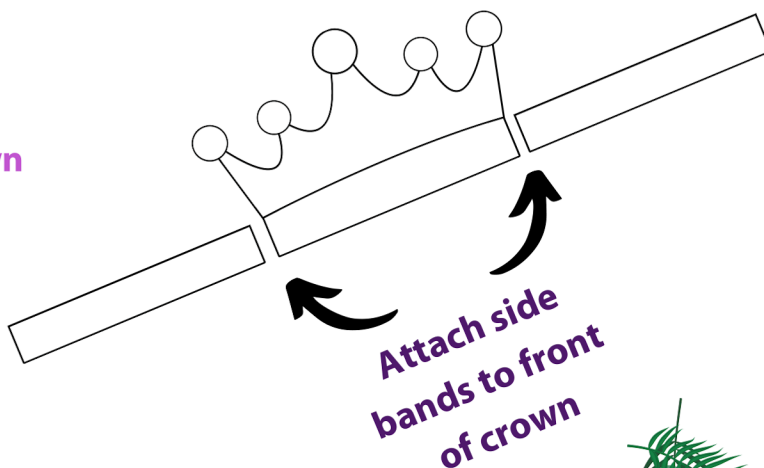

YOU WILL NEED:

Crown template on next page:

INSTRUCTIONS:

- Colour in and decorate the front and sides of your crown. For extra strength you could glue your crown onto a piece of card before colouring in.
- Carefully cut around the crown front and two side bands.
- Join the two side bands to either side of the front piece with tape or glue.
- Measure the crown around your head to get the perfect fit, then trim the ends to the right length. Glue or tape the ends of the bands together at the back of your head.

Why not go outdoors and gather leaves, flowers or twigs to decorate your crown?
