

THE MUMBLER EUROVISION WATCH ALONG SCORECARD

We've set out 6 different criteria on which you can award a score out of 10 for each entrant (10 being the maximum top marks), before totalling the points awarded in the final column as a mark out of 60.

Even if the song itself is worth a dismal zero (or "nul points", as they would say in Eurovision), a country might still be able to salvage points with a memorable outfit, showstopping choreography, or general preposterousness that gives it an epic wow factor.

Such is the crazy magic of Eurovision!
